- Day 2

Arap Island, Bozukkale (Loryma)

Arabian Island - Bozukkale (Loryma) Today, we will set sail for the Arabian Peninsula. The night will be spent in Bozukkale. In the historical city Bozukkale (Loryma), there is a castle that stretches out in a rectangle with its city walls and 9 temples.

The name Bozukkale means crooked castle and might be associated with the fact that one side of the castle is missing. Because of its geographical situation and the narrow port entrance, the port was also used by the Greek navy forces during the Peloponnesian Sea Battle.

Karor, the Commander of Atina gathered all his ships here before the Cnidus War in

395 B.C., and Demetrios; the son of Antigonos used this port for the preparations before attacking Rhodes in 305 B.C..

- Day 3

Bozburun

After docking in Dirsekbükü, we will go to Bozburun. Bozburun is a small fishing town. This area was popular and suitable for sponge-diving but nowadays the people of the island are no more interested in sponge-diving as it is not worthy and is dangerous. In the last years, sponge-diving is replaced by gulet tourism and Bozburun Gulets nowadays could take its place in this sector.

- Day 4

Bencik Bay / Datca

Our first stop will be the Bencik Bay; which has a very narrow entrance but a unique view once you get inside. Bencik is located at the narrowest part of the peninsula that divides the Hisaronu Gulf from the Gokova Gulf but it is closer to Hisaronu. In 550s B.C. the Cnidus people wanted to dig a tunnel in the narrowest land piece of the peninsula between the Hisaronu Gulf and the Gokova Gulf as a defense line against the Persians.

That way they would make two peninsulas one island and the defense easier. They started with diligence and put a lot of effort; however, in the end, they could not manage and the city was conquered by the Persians. We will sail to Datça to have dinner and spend the night.

- Day 5

Symi Island

Completing all paperwork and formalities, we will set sail for the first stop on the Greek island Symi. You can see the shore-side with its neo-classical houses and the

Rhodes Island

Sailing to Rhodes early in the morning. Rhodes is the largest of the Dodecanese islands. The island is a very popular holiday place as it has one of the best-protected and the largest European Medieval city and has warm weather almost 300 days a year. Rhodes has been a home for many civilizations; starting with the knights of St. John in the Middle Ages, then Ottomans and Italians; thus the island has a unique historical harmony and the beauty of these three.

The main port Rhodes is the Rhodes City which bears the same name with the island. The other very touristic areas of Rhodes island are; Lindos and Kamiros. The city, which is still surrounded by 12meter-thick city-walls, gives you the feeling of traveling back to Medieval times especially when you walk around its narrow, stone-paved roads. After dinner, our guests are highly recommended to enjoy a Rhodes night out
